LINKS	LinkedIn , Github			
PROFILE	Targeting Full stack Developer & Cyber Expert roles with an organization of high reput with a scope of improving knowledge and further.			
ACADEMY PROJECT				
Mar 2023 — May 2023	Employees Leave Management System, Tools: HTML, CSS, JAVASCRIPT, SQL.		Meerut	
	An employee leave management system efficiently tracks and manages employee absences. It streamlines leave requests, ensures compliance with policies, provides insightful reports, and enhances communication between employees and management.			
Feb 2024 — Apr 2024	Weather Prediction system, Tools:HTML, CSS, JAVASCRIPT, Rapid API		Meerut	
	A weather prediction system forecasts atmospheric conditions, helping in disaster preparedness, agriculture planning, travel safety, and energy management. It predicts temperature, precipitation, and severe weather events, allowing individuals and organizations to make informed decisions and take necessary precautions to ensure safety and efficiency in various activities.			
Oct 2024 — Nov 2024	Face recognition attendance system, Tools:python, SQL.		Meerut	
	A face recognition attendance system automates attendance tracking by identifying individuals through facial features. It enhances accuracy, reduces time spent on roll calls, and minimizes proxy attendance.
